Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1) Responsive to communication(s) filed on 22 September 2004.

2a) This action is **FINAL**. 2b) This action is non-final.

DETAILED ACTION

Remarks

This Office Action is in response to Applicant's amendment of 9/22/04. By the amendment, claims

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 9-27 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 8-20 of U.S. Patent No. 6,122,060 in view of Iuchi et al (US 4,619,529).

Claims 9-27 are already protected by claims 8-20 of U.S. Patent No. 6,122,060 in that claims 9-27 of the present application is broader in scope than the claims of U.S. Patent No. 6,122,060 in that claims 9-27 now has less limitations and although the wording may not be duplicated, limitations are already protected. Therefore, the infringement of the claims of U.S. Patent No. 6,122,060 would also infringe the claims of the present application. Furthermore, with regards to applicant's remarks that the phase modulated light results from scattering incident light from ultrasonic displacement, claims 1, 8, and 15 of U.S. Patent No. 6,122,060

recite that the phase modulated light results from scattering incident light from ultrasonic displacement. With regards to claims 24 and 27, U.S. Patent No. 6,122,060 does not claim the use of a transducer to produce the ultrasonic surface displacements but discloses that transducers and other means are known in the art. In addition, Iuchi et al teaches other forms of producing ultrasonic surface displacements and in particular, the use of a transducer. At the time of the invention, it would be obvious to one of ordinary skill in the art that other functionally equivalent means for producing ultrasonic displacement can be used as taught by Iuchi et al, and in particular, one of ordinary skill in the art would have used a transducer for its lower cost as is generally known in the art that transducers cost less than lasers.

Response to Arguments

Applicant's arguments with respect to claims 9-27 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
